

FOR IMMEDIATE RELEASE

Eilon Engineering and CTS, Inc. Announce Strategic Partnership for North American Sales Support, Engineering, and Technical Services

Twin Falls, Idaho August 13th, 2024 – Eilon Engineering, for the last 48 years, a leading provider of specialized scale and measuring equipment and a developer and manufacturer of Ron Crane Scales™ dynamometers and load cells - all innovative, state-of-the-art products incorporating the latest technologies. Eilon Engineering, a leading developer and manufacturer of wireless and wired load monitoring systems including the single point Ron Crane Scales™ dynamometers and load cells, as well as the Ron StageMaster™ multipoint load monitoring systems. Ron Crane Scales™ has become renowned as a global market leader with a wide-spread international reputation for excellence. An uncompromising attitude towards safety, high quality, reliability, and the introduction of unique features (extremely long battery life, compact dimensions, wireless communication and more), has brought thousands of repeat customers, including corporate giants such as NASA, Boeing, GE, Siemens and many others., and CTS, Inc., a renowned expert in industrial technical support, design, and engineering, today announced a strategic partnership to enhance sales support, engineering, and technical services for customers across North America.

This collaboration brings together the strengths of both companies to deliver comprehensive and efficient solutions to customers in the impacted sectors. Eilon Engineering's experience and capabilities combined with CTS, Inc.'s extensive experience in industrial processes and automation will create a powerful partnership that drives innovation and customer satisfaction including a 5 year warranty.

With over 20 years of industry expertise, CTS, Inc. has a proven track record of providing exceptional customer service including sales, technical support, design, and engineering services. By leveraging CTS, Inc.'s deep knowledge and resources, Eilon Engineering will be able to expand its reach and better serve its North American customer base.

Eilon VP Business Development Noga Eilon. "Their expertise and commitment to customer success align perfectly with our own values. Together, we will deliver unparalleled support and solutions to our customers."

"We are thrilled to collaborate with Eilon Engineering," said Stace Campbell, President and CTO at CTS, Inc. "This partnership allows us to combine our strengths and offer a comprehensive range of services to customers in the industries we serve. We look forward to a successful partnership and delivering exceptional value to our clients."

About CTS, Inc. CTS is a leading project consulting firm and experienced Enterprise Project Solutions company specializing in implementation of project solutions across many industries worldwide for more than 20 years.
